## Math Adventure Puzzles

The line gets blurred a bit with crossword puzzles; technically as was pointed out by fellow puzzler Christopher Night crosswords may have multiple answers and are up to interpretation like pattern puzzles.

## Maths Puzzles

Solution Ready for the solution? Similarly, the two numbers cannot be, say, 8 and 9, because then also the students who said it was divisible by 16, 24, 18, and 27 would have been in the wrong. If the centers of all three planets happen to lie on a straight line some kind of eclipse the inhabitants of each planet go nuts they cannot see their two neighbor planets all at once , start talking about the end of the world, and the stock market crashes.

## Top 30 Math puzzles everyone should try

Jaya sees Julian has 20 on his forehead, and Levi has 30 on his. Click the numbers you want from the Notes box.

## Missing dollar riddle

. Sharing these fun puzzles with your kids is a great way to get them thinking mathematically and solving problems in a fun and engaging way! A car has to carry an important person across the desert.
