Assuming dairy cattle spatial distributions remain the same, the area of greatest risk now and in the future is South West England, with notable increases in risk across Northern Ireland, Wales, the Midlands, North West England and North West Scotland. REF As an example, the Russian Ministry of Defense announced that in January 2019, two Tu-160 bombers flew for 15 hours in international airspace over the Arctic. The latest programme sets out what government and others will be doing over the next 5 years to be ready for the challenges of climate change.

**FFA**

REF An Arctic brigade was formed in 2015, although plans for a second brigade have thus far failed to materialize. REF The investments in these new military facilities have cold-weather combat in mind. REF Commissioned in 1976, the Polar Star, was designed for a 30-year service life, which was reached in 2006.

**Home**

REF The Global Positioning System GPS , on which both civilian and military authorities rely heavily, is degraded due to poor satellite geometry. The Baltic states work closely with the Nordic countries, which are Arctic powers.

**Future climate risk to UK agriculture from compound events**

On August 18, 2017, President Trump directed that a fourth functional command, U. Each has also increased its defense spending in the Arctic.

**Future climate risk to UK agriculture from compound events**

This changed in 2014, when the U.S. On the positive side, the Trump Administration has ended the diplomatic sanctions that the Obama Administration applied against Iceland over the issue of whaling.
