The exposition is friendly and relaxed, and accompanied by over 300 beautifully drawn figures. Are we right to make this assumption? Tyranny of Reason, which is designed for the interested lay reader and for undergraduate or beginning graduate students in the social sciences, attempts to answer these important questions in the context of the history of philosophy. They will be taking their first steps towards becoming math Olympians! Approximately thirty students are selected based on their USAMO performance to be trained at the , or MOSP better known as MOP to its participants.
