## The World of Multilingual Environmental Thesauri

The FORMAT FORM shows: 1 Item Number 2 SuDocs Stem 3 Format selected by our Depository 3. The vertical context sees a thesaurus transformed from a static map of concepts, terms and relationships to a functioning system. The first volume contains the classification of the morphology of tumours, the causes of mortality and morbidity, definitions and rules for nomenclature and the report of the international conference for the 10th revision which shows the complexity of the revision process.

## Taxonomic Hierarchy In Biological Classification

Committee members felt this topic was important enough to recommend a national meeting to discuss extending the national preservation plan for agriculture to include USDA digital information. Systematization of the Italian Literature Field. Fast, Karl, Leise, Fred and Steckel, Mike.

## Catalog Record: Corporate author authority list

A pilot project is planned. Shiri provides an update, including screen layouts for electronic thesauri, to be discussed next. New systems are under development and are being tested at NAIC and NLM.

## Catalog Record: Corporate author authority list

The system can be programmed to display help messages for specified terms. This is an example of XML indexing.

## The World of Multilingual Environmental Thesauri

The Metathesaurus is intended primarily for use by system developers, but can also be a useful reference tool for database builders, librarians, and other information professionals.
