## The Explanation Of Al

As the first book in the Arabic language, it introduced stylistic innovations which greatly influenced trends in subsequent generations. It is particularly important given the unfavorable climate that prevailed among the early Muslim scholars with respect to lexical borrowing. Story-telling may not have been totally novel in pre-Islamic Arabia given the significant quantity of parables, epics, and myths that were inherited from that period.

## Sharh Aqidatul

Nothing happens except what He wills. Eloquence and the ability to compose articulate prose or poetry were foremost among the traits of a worthy bedouin. We hold that obedience to them is part of obedience to All ah, the Glorified, and therefore obligatory as long as they do not order to commit sins.

## Islam, the Qur'an and the Arabic Literature

In fact, it can be maintained that had it not been for the strong desire to preserve the Qur'an, its form, grammar, pronunciation, and accuracy, the Arabic alphabet and writing system might not have developed as quickly as they did. Hence, anyone who hears it and claims that it is human speech has become an unbeliever. The Qur'an has without doubt provided a level of linguistic excellence unparalleled in the history of the Arabic language.

## Commentary on Sharh al

The Qur'an does, however, reflect certain aspects of poetry, especially with respect to its use of words with identical numbers of syllables.

## Sharh Aqidatul

We believe in the angels, and the Prophets, and the books which were revealed to the messengers, and we bear witness that they were all

following the manifest Truth. The verse: Thus have We sent down this Arabic Qur'an 20:113 is often cited in support of this view. To proceed: This is a brief essay concerning usoolul-fiqh fundamentals of jurisprudence , uncomplicated in wording, clear in meaning, and useful in learning its rulings for whosoever contemplates its meanings.

**A1**

Even if all created beings were to gather together to make something fail to exist, whose existence All ah had written on the Tablet, they would not be able to do so.

**AL**

These patterns are a reflection of the special array of words and arrangement of phrases found in the Book. So when these detailed evidences are completed, then judgement can be resolved for the issue by way of them.
