### Increasing pupil numbers create challenges for secondary schools

Some observers believe it will last for just two years, others, perhaps somewhat optimistically, in perpetuity. But the data we have is not definitive. Additional timetabled sessions were organised for these students, where they received additional guidance on how to plan and deliver Early Years activities.

### Where next for the student revolt?

Students who are considering studying in the areas of medicine, dentistry or veterinary science will also want to organise work shadowing placements. The ideas chosen were those important in securing understanding of the subject at GCSE and beyond, and those identified as poorly retained in mock examinations.

### Sixth Form / Wellsway School

The established the current framework for maintained schools, categorising them as , , or .

### Increasing pupil numbers create challenges for secondary schools

If a united movement is to be built, it has to be on the basis of the militancy of the students - not on the current passivity of the unions.

### Edutopia

Radicalisation occurred because a layer of mainly young workers saw the students battling with the police and occupying their universities. The regulator says that if the teacher-assessed grades had not been adjusted through the standardisation process, this year's results would have been 12 percentage points better than in 2019 at A-level and nine points at GCSE. The school also makes use of Academy 21, an online service.

## **Ofsted Report Finds Chiswick School 'Needs Improvement'**

The Department for Education must now publish all correspondence to and from the Secretary of State in which concerns about this algorithm were discussed, as a matter of urgency. The costs proved too great politically.
