The Weir

In a Heisenberg-ian twist, it seems possible that some of the sounds were created by the devices themselves. The audience experiences the music from inside the instrument.

instrument.

Listen to Strange Sounds Recorded in a Hole 5 Miles Deep

How can I control the tailwater elevation for lateral weirs? Can I mix different brands of tubes? Is this one of these occasions? I haven't tested this on any high performance computers but I think it's global. By blocking the holes with your fingers, you divert the water past the sound mechanism for that hole, allowing air to blow out at that specific pitch. For example, a weir coefficient C of 3.

Wired Sound for Wired People

The problem I have is I'm losing flow from upstream boundaries conditions to my in line structure, about 7%-10% less flow pass through the in line structure 6000 mcs. But both share the same discharge coefficient Cd of 0. Geeven partnered with geologists and engineers to record the sound of a 30,000-foot hole located in the sloping hills of Windischeschenbach, Germany, and turned it into a fascinating art installation.

The sounds and inflections of the Greek dialects. * Ionic : Smyth, Herbert Weir, 1857

Hydraulophone If you know how a woodwind instrument works, like or saxophones for instance, then you already understand the hydraulophone. Tube was only a few weeks old. The Yabahar Gorkem Sen, a musician out of Istanbul, invented the Yabahar as a completely new type of acoustic instrument.
