## Reminiscences of the Cuban Revolutionary War by Ernesto Che Guevara

I learned a lot about military and guerilla strategy, the day to day life of the revolutionaries in the woods of the Sierra Maestra and the Cuban peasant life of the late 50s. I really enjoyed this book because it offered a first-person perspective of the Cuban Revolutionary War. Guevara also predicts that in five years, his country will be adequate in the production of textiles.

Even through the darkest days and the blockades that were done to Cuba, the people did not stop their revolution. Here we see the youthful adventurer doctor has matured into a commander on the guerrilla war in Cuba, working under Castro. Throughout Reminiscences, the sweep of history and matters of life and death are rendered in small and intimate ways.

And there is no better account of the war than this little book by guerilla leader Che Guevara, assembled by Che from his campaign diary, first published in 1963, later corrected and edited by Che, and published here finally in an authoritative edition that not only includes Che's corrections, but also, in Part 2 a number of short essays and articles published by Che in those early years after the revolution's triumph. There are a lot of facts and names in each entry which can make it difficult to read at times, but I admire Che's commitment to keeping the story straight, even if it means it's not the easiest book to read.

He had a brilliant mind which shines through in this memoir. This book by him is barely about him.

Che's indelible account of the Cuban revolutionary war, the source of Che: Part 1, the 2008 film by Steven Soderbergh, starring Benicio del Toro. After a long pre-history, the actual Cuban revolutionary war itself only lasted, incredibly, a little over two years, from Dec 2, 1956, to January 1, 1959—from the disastrous first battle, in which three-quarters of the expeditionary force of 82 revolutionaries that traveled to Cuba on the Granma were killed, to total victory at the beginning of January 1959. He then pursued a version of internationalism that takes into consider the problems unique to Cuba when it comes to its dependency.
