of a sample of professions who went to private schools, in 1987 and in 2016. What is the National Centre for Universities and Business doing in this area? Because there is then a tight link between formal educational qualifications and employment opportunities, educational inequalities are rather systematically translated into labour market inequalities.

## Britain's social mobility crisis in ten graphs

Of the 10,000 records in the data, only information on males between the ages of 30 and 49 at the time of the survey is used, to ensure an age structure that is comparable to that of the linked census data.

## Global Social Mobility Index 2020

We need to find ways of encouraging employers to treat their employees as a long-term investment.

## Social mobility in UK 'virtually stagnant' since 2014

For the limited purposes of this study, these problems can be dealt with simply enough by omitting these occupations in the construction of the average wage for each class and year. Travel, Interrupted Which countries earn the most from the travel and tourism industry in absolute dollar terms? Social mobility has improved much more in some professions than others This graph shows the percentage of people at the top

These records provide a snapshot of father and son's occupations that can be used to measure the rate of intergenerational occupational mobility.

### **Britain's social mobility problem has been misunderstood**

Although comparing occupations and classes across a century inevitably will be imperfect, the nature of the data and the sources used to classify the occupations are in fact reasonably well suited to the task. The respondent's occupation at the time of the survey is taken as the son's occupation, and the occupation that the respondent reported his father to have had when the respondent was 14 years old is taken as the father's.

### **Britain's social mobility crisis in ten graphs**

As a nation once ravaged by and turbulent economic shifts, the resulting poverty rate remains high at 46. On May 28th, for example, the country had 24,151 new cases and 1,067 new deaths.
