Our library is the biggest of these that have literally hundreds of thousands of different products represented. Save your money and time.

PHP6 / MySQL Programming for the Absolute Beginner

I know because I kept referring to O'Reilly when trying to figure out what the Harris book was saying. Therefore, I suggest borrowing the book from a friend or the library before purchasing, or buy it used. The resulting programs are not as secure as proper PHP6 programs, but they're no worse than the majority of PHP5 programs being used today.
