Protocols for High

Dinsmoor 51 Toxoplasmosis, 000 Shad Deering 52 Varicella, 000 Hans M. Prenatal care is important because it allows a healthcare provider to evaluate, identify, and treat risks, such as counseling teens not to take certain medications during pregnancy, sometimes before these risks become problems. Providing just-in-time content, its focus on protocols and guidelines helps organize medical thinking, avoid heuristic errors of omission and commission, and optimize maternal and fetal outcomes.
