## Ennead (Title)

He also references Aristotle positively for considering every possible state but then not for considering probability. An Athiest or non-believer wouldn't fulfill personal immortality because he's a non-believer.

## The Enneads

Plotinus regarded Plato as his master, and his own philosophy is a profoundly original development of the Platonism of the first two centuries of the Christian era and the closely related thought of the Neopythagoreans, with some influences from Aristotle and his followers and the Stoics, whose writings he knew well but used critically. Published by Tappytoon under license from partners. For consciousness is principally centered and seated in the Lingha Sharira or Astral Body which is the most important and real soul to become cleansed as Eliphas Levi and Theosophy speak of and lucid.

## Ennead (Title)

Though this point is debatable, he strikes me much more of a mystic than a philosopher. The ennead is the greatest of the numbers within the decad and is an unsurpassable limit.
