[PDF] Local Economic Development: A Review and Assessment of its Current Status in South Africa

That is because the economic development effectiveness of any particular investment may hinge upon the extent of other remaining barriers to economic development.

Handbook: Assessing Local Economic Development Opportunities with ARC

These questions apply to every region attempting to promote economic development.

Handbook: Assessing Local Economic Development Opportunities with ARC

As a programme, LED is intended to maximise the economic potential of all municipal localities throughout the country and, to enhance the resilience of the macro-economic growth through increased local economic growth, employment creation and development initiatives within the context of sustainable development.

Local Economic Development (LED)

Seeking to help ensure that local development districts and state agencies are equipped with the tools that they need to maximize economic opportunities, ARC contracted with EDR Group now EBP to develop a handbook and software tool for assessing regional economic performance and targeting opportunities.

Local Economic Development (LED)

This paper investigates the current status of LED in South Africa, where, over the past decade, local governments, community groups and non-governmental organisations NGOs have become significantly.... . The LEAP Model was originally developed for the.

Local Economic Development (LED)

This project was recognized by an award for excellence by the International Economic Development Council. Appalachian Regional Commission

website, written by Economic Development Research Group, Inc. It provides local economic , and for comparison of economic development factors against competing regions.

[PDF] Local Economic Development: A Review and Assessment of its Current Status in South Africa

LED is less widely implemented in the South where, in most instances, it appears to be still in an incipient phase. The handbook and accompanying ARC-LEAP Local Economic Assessment Package are designed for use by local and regional officials who are interested in targeting specific industries as part of a strategic plan for economic development.

Local Economic Assessment Package

The need is particularly high for regions that seek economic benefits from public and private investments in new infrastructure, facilities, and support services. Local Economic Development is an approach towards economic development which allows and encourages local people to work together to achieve sustainable economic growth and development thereby bringing economic benefits and improved quality of life for all residents in a local municipal area.
