Space Tourism: Adventures in Earth Orbit and Beyond by Michel van Pelt

After reaching an altitude of about 88 kilometres over the New Mexico desert which was enough to see the curvature of the Earth as well as to experience a few minutes of weightlessness the team made a gliding descent back to Earth. It is suitable for space travel enthusiasts.

Space Tourism: Adventures in Earth Orbit and Beyond

Space is about to be opened up to more and more people, and the drive behind this is one of the most powerful economic forces: tourism.

Space Tourism: Adventures in Earth Orbit and Beyond by Michel van Pelt

Yet, we read about hotels that will allow honeymooners to gaze at the sun setting every 90 minutes.

Maqālah fi al-

Consider it the armchair traveler's guide to the coming boom in space tourism. It includes eight color pages, a five-page bibliography, and black-and-white photos
