Organisation topologique de l'espace architectural : Topological organization of architectural spaces...

It should then emphasize the concrete, non-harmonic character of the public, too.

giavitto:publications [Jean

The group is overall characterized by a stereotypical socio-spatial representation of Strasbourg. Conversely, the more individuals have economic and cultural resources, the more their representations are based on physical and social evaluations of their environment as is the case in the stereotypical representation.

Organisation topologique de l'espace architectural. Topological organization of architectural spaces. (Book, 1970)
[metrics.learnindialearn.in]

Because of their inherent properties of length and axial continuity, linear organizations express movement and a directional quality. The groups whose representations of the city are instrumental or recreational are characterized by an over-representation of BIATSS staff belonging to categories B and C respectively 34. THE MEANING OF ORIENTATION Figure 1.
