During said captures, Kaido was repeatedly tortured and given the death sentence forty times. In spite of Oden's death ever since, Kaido still seems to be haunted by his fight with him, particularly the fact that he almost died that day if it were not for Higurashi's actions. When a member of the Beasts Pirates seemingly captured in truth in as a hostage to distract Oden, Kaido only took the opportunity to strike Oden down because he did not know of the situation until afterwards.
