Tower of Silence (2019)

Unlike in , the problem faced by the Parsis of India is that of a depopulation of vultures. Alternatively, the bones may be placed in a central well, where, if the climate is dry, they would naturally disintegrate into powder.

Tower of Silence (2019)

The ritual precinct may be entered only by a special class of , called nusessalars, a contraction of nasa. View of the city of Yazd from atop towers of Silence 3 What did Zoroastrians Do with Dead Bodies? This album feels crushing and massive while still allowing room for atmosphere and even melody.

Tower of Silence (2019)

Only a few of these will be made so don't wait too long! According to their beliefs, a dead body is unclean and is a major source of contamination, capable enough to carry contagion. Writing on the culture of the , Herodotus reports on the Persian burial customs performed by the , which are kept secret. Make sure you get one for yourself while you still can! They spread their beliefs to become the leading religion in the Persian empire.

Yazd Zoroastrian Towers of Silence: where the dead were sent for decontamination before going to final resting place

At present, it is not entirely clear when the earliest of these structures were built. They definitely stand out against the desert landscape of Iran however.

The Tower Of Silence Was A Gruesome Place Used To 'Purify The Dead'

They do not follow the regular mortuary practices, which include either burying the corpse, setting a wooden pyre or immersing the ashes into the water. Towers are a much later invention and are first documented in the early 9th century CE.

the Towers of Silence: Part 1 (TV Episode 2005)

At its height, it was the ruling religion of the Persian empire, but today there are less than 200,000 followers worldwide.

Zoroastrian Tower of Silence Explained: Origin & Use Today

The towers remain in use as sacred locations for the Parsi community, though non-members may not enter them. There hundreds of skulls in this small picture alone.

the Towers of Silence: Part 1 (TV Episode 2005)

Incidentally, the English term of this structure has been attributed to Robert Murphy, a translator in the service of the British colonial government in India during the early 19th century. He was sent to Iran by the Parsee community of India, who had heard about the cruelty and neglect towards the Zoroastrians of Iran in that era, to negotiate with the king.
