### **PolitiFact**

Certain concepts of Marxian economics, especially those related to capital accumulation and the business cycle, such as creative destruction, have been fitted for use in capitalist systems. Libertarian Marxist currents often draw from Marx and Engels' later works, specifically the and , emphasizing the Marxist belief in the ability of the to forge its own destiny without the need for a revolutionary party or to mediate or aid its liberation.

Still, there are some lessons that even modern economic thinkers can learn from Marx.
