Montana : definition of Montana and synonyms of Montana (English)

There is a strong indication the demand for in- facility hemodialysis will increase through 1985. Peter's Hospital in Helena, Deaconess Hospital in Bozeman, and Community Hospital in Missoula, have limited poison control information capabilities.

DRAFT HJR 32

Home management, under the direction of a poison information center, can often allow a quicker reaction to a poisoning and therefore promotes better care. Information available in the component indicates Montana could not support a regional poison information center or tertiary treatment facility. By 1985, burn units serving Montana should develop air ambulance capabilities and develop burn

education programs for physicians and other personnel involved in treatment of burn victims.

MONTANA ADMINISTRATIVE ISSUE NO. 6

It is even possible that the police power of the state can be exercised even though provision for compensation to the owner of property has not been made. In most cases, use of the drug is discontinued after completion of the task without the user's experiencing physical impairment or social dysfunction.

Montana

About 66,000 people of Native American heritage live in Montana. That committee released its recommendations in December 2002, many of which were subsequently implemented by DFWP.

Montana : definition of Montana and synonyms of Montana (English)

By 1980, the poison control capabilities of all hospitals in Montana should be identified and included in the statewide Emergency Medical Systems hospital categorization process. By 1980, hypertensive screening programs with methods of referral and follow-up should be developed in Montana.

Journalism theses and dissertations from the University of Montana.

The CAT scanner is a computerized X-ray system which can produce cross-sectional pictures of the head or body, including pictures of organs obscured in conventional X-ray photographs. Army post
