Analysis of Albert Camus's Novels

And all about that neighbourhood, even from the August London and Country Banking Company, from the tills of shops and inns ... money had been quietly and dexterously making off that day in handfuls and rouleaux, floating quietly along by walls and shady places, dodging quickly from the approaching eyes of men. This passage strongly suggests that Kemp is Wells's surrogate in the novel and that when he presents Kemp as the savior of England, he is imagining no less a role for himself. The creature's essential humanity now becomes clear to the reader: he feels sympathy, affection, and desire; he is capable of aesthetic appreciation as we see in his enjoyment of the family's music ; he has mastered language; and he is capable of self-analysis and reflection.
