## The New Technological Revolution and the Third World

The problem is that providers adopted disparate systems with translation and intercommunication issues. That is a familiar story. One of those big trade fairs held in Frankfurt is EuroMold, which shows machines for making prototypes of products, the tools needed to put those things into production and all manner of other manufacturing kit.

## Future Technology

This risks leaving those at the bottom further and further behind with less and less chance of catching up with the leaders. It refers to an attempt on the part of the people particularly those who are custom-bound to adapt themselves to the present-time, conditions, needs, styles and ways in general.

## The singularity: The fantasy and its effect

Digitisation in manufacturing will have a disruptive effect every bit as big as in other industries that have gone digital, such as office equipment, telecoms, photography, music, publishing and films. Kirmeavy, Southern Illinois University Press, 310—327.

## United States

Cotton mills became the symbol of the New South, and mills and mill towns sprang up in the region from to and into Alabama. Our reports are construed for information purposes solely and are distributed free of charge to individuals who wish to receive them.
