## Automotive Body and Glass Repairers : Occupational Outlook Handbook: : U.S. Bureau of Labor Statistics

Job Prospects Despite limited employment growth, about 15,700 openings for automotive body and glass repairers are projected each year, on average, over the decade. As they gain experience, they move on to more complex work, such as aligning car frames. If you do this properly, you will never have a shortage of people to contact.

### Automotive Body or Glass Repairer Career Profile

They assess body damage and develop repair estimates and repair plans.

[metrics.learnindialearn.in](http://metrics.learnindialearn.in)

This is especially true in large, urban areas.

### Auto Body and Collision Technician

In addition, repairers should enjoy working with their hands and be able to pay attention to detail while they work. Vehicle components that are damaged beyond repair are replaced.

49

Body repairers restore the structural integrity of car frames to manufacturer specifications. Body repairers use pneumatic tools and plasma cutters to remove damaged parts, such as bumpers and door panels.

### Collision Repair Training

This generally involves cutting away damaged components and welding in new or recycled replacement components. Talk to them to find out how you can get the cost lowered. Virtually all passenger vehicles manufactured today employ unibody or monocoque construction where each body panel contributes to the integral strength of the vehicle, maximizing passenger protection.

## **Automotive Body or Glass Repairer Career Profile**

Corresponding needs are Company Policies, Supervision: Human Relations and Supervision: Technical.

### **Auto Body and Collision Technician**

Not sure how to choose the best career for you? Many companies within the automotive body repair industry send employees to advanced training programs to brush up on skills or to learn new techniques. Auto Body and Collision Technicians repair and restore damaged motor vehicles.
