9 Tips for High

Be Careful When Selecting Visuals Your graphics should be free of any culturally inappropriate images. Limit yourself to one key idea per slide: Not only will this allow you to inform your audience without overwhelming them, but it will also keep you from diluting the importance of each piece of information with tangents. Being able to plan and deliver a high impact presentation in a concise, engaging and effective way could be the difference between your career being a success or not.

Before the trip, he spent weeks planning an in-depth sales-tactics presentation geared to sales leaders. Not only that, but studies show that the retention of knowledge is significantly increased when visuals are used rather than text, so keep this in mind when creating your slide deck. And do you want to when speaking? In Hong Kong, business people typically prefer presentations and proposals to begin in general terms before transitioning into the narrow details.

The definitive guide to creating a high impact business presentation (with examples)

As a general rule, you should aim to include no more than three pieces of information on one slide—all of which contribute to one idea. A special

focus on visual communication helps you master everything from using slides, handouts, and overheads to staging a full-scale, multimedia presentation. But if you prepare appropriately, you can truly be present during the presentation—the most effective way to engage an audience and maintain their attention.
