In 1980, Congress formally recognized the social and cultural importance of protecting subsistence for both Native and non-Native rural residents when it passed the Alaska National Interest Lands Conservation Act ANILCA. Routes between Africa, Eurasia, and North America are the primary migratory paths. Its extension through two climactic zones Arctic and sub-Arctic and its summer sunlight and winter darkness account for great differences in temperature between summer and winter.

## Low

In a later , the GAO added that no federal agency was taking the lead in addressing threats to Kivalina and other Alaskan native villages, even though everyone could see a potential disaster coming. Their first appearance struck me with amazement beyond expression.
