## The Languages of Psyche

William Robertson wrote to him from Edinburgh on 14 June Letter 34 : Our friend John Home arrived here from London two days ago. Why, then, has Christianity made so little advance after nineteen centuries of history? In his comick scenes he is seldom very successful, when he engages his characters in reciprocations of smartness and contests of sarcasm; their jests are commonly gross, and their pleasantry licentious; neither his gentlemen nor his ladies have much delicacy, nor are sufficiently distinguished from his clowns by any appearance of refined manners. We consider such a man as exactly in the same predicament as a wild beast which does an injury.

## Full text of life, times, and correspondence of the Rev. Isaac

The examination of the means by which these initial aims were transmuted under the criticisms of conservatives and the realities of patronage and power has many important implications for further inquiry into the work of reformers in the nineteenth century.

## The Theory of Moral Sentiments

The importance of such explications appears from the mistakes which the want of them has occasioned: had Shakespeare had a dictionary of this kind, he had not made the woodbine entwine the honeysuckle; nor would Milton, with such assistance, have disposed so improperly of his ellipses and his scorpion. High sacramental theories, or profound reverence for Church tradition and ancient usage, or decided views as to the exclusive rights of an episcopally ordained ministry, are almost as likely to be combined with liberal, or even with democratic politics, as with the most staunch conservative opinions.

## **Great Christian Library**

In no country are there so many heathen visitors as in England. And let it be remarked, that it is not the similarity of external objects which should here be considered, but the view which the mind takes of them.

**The doctrine of the passions explained and improved, or, A brief and comprehensive scheme of the natural affections of mankind : attempted in a plain and easy method, with an account of their names, nature, appearances, effects, and different uses in human life, to which are subjoined moral and divine rules or the regulation or government of them : Watts, Isaac, 1674**

It is called the kingdom of God Romans 14:17 , because it is a taste of that which the saints have in the kingdom of God. In English, those modifications or relations which we call cases, belong only to nouns and pronouns; nor are there ever more than three.

### **Outlines of Moral Science.**

They knew Him not—in His origin, claims, and mission, recognized Him not as the Messiah. All six of this first group of errors are corrected in edition 3.
