The business case for creating stakeholder value has already been proved. And that happens more frequently than is generally believed. For the most part, option grants have not successfully aligned the long-term interests of senior executives and shareholders because the former routinely cash out vested options.

Not only that, another solution would be to exclude restricted stock grants from the shares that qualify for senior executive minimum ownership levels.

Friedman doctrine

A number of different mechanisms are available to reduce the agency conflicts between shareholders and managers. Despite its high potential social benefit, this concept is difficult to implement in practice because of the difficulty of determining equivalent measures for usefulness to society and satisfaction of employees. This is a good thing as a firm that abuses its shareholders will die.

Selecting Strategies That Create Shareholder Value

following year, he set return on equity as the key measure of financial performance and set a target for every business within the bank to achieve a return that exceeded its cost of equity. When the VROI ratio is equal to zero, the strategy yields exactly the risk-adjusted cost of capital, and when VROI is positive, the strategy yields a rate greater than its cost of capital.

My View On: Shareholder

The poor performances of other firms may be due, in part, to a lack of attention to stockholder interests and the pursuit of goals more in the interests of managers. A recent example is Kmart.
