## Construction

Assuming the deflection calculation to be fully accurate could then lead to the discovery of this contribution to overall variability only after erection on site, with consequent disruption whilst the solution was sorted out. You will also apply WorkSafeBC standards and regulations as well as shop specific standard operating procedures for use and maintenance of the equipment.

## Construction

Materials fee may be required.

## Vocational Education and Training

Advanced intaglio studio focuses on the development of additional techniques such as lift and soft grounds, photographic processes, color and multiple plate printing, and viscosity printing. This course will focus on that complex and compelling subject. These programs have evolved over the years, allowing girls to participate in co-ed classrooms that were once a boys-only program.

## Browse subject: Machine

In these jobs, the graduate will build and repair metal components using basic knowledge of blueprints, metallurgy, and layout while applying the major welding processes used by industry. If you can demonstrate substantial competency in this qualification, you may be able to access funding for recognition of prior learning and gap training through the Trade Skills and Assessment Gap Training TSAGT program. Students will develop several projects that employ skills in digital and physical media to create works that creatively engage with audiences in contexts that may not be traditionally associated with art.

## School of Art Courses

Prerequisite: 31-442-342, Shielded Metal Arc Welding 1 31-442-357 SHIELDED METAL ARC WELDING 3.

## **Certificate III in Engineering**

In this class we build on skills and concepts learned in 3D media 1 and 2 to develop students' individual approach.

### **Browse subject: Machine**

COST Eligible apprentices and trainees that meet the Queensland state funding requirements will be charged a set fee per nominal hour.

Prerequisite: 60-416 Advanced ETB: Interactive Multimedia Intermittent: 10 units Within this class students will engage in a personally directed exploration of the creative, conceptual and tactical possibilities of interactive scenarios within their art practice. Department of British and Mediaeval Antiquities, O.
