### Japanese Satsuma Pottery

Mark: Bizan under the Shimazu family crest. The typical Satsuma ware we most of the time comes into contact with is a yellowish earthenware usually decorated with a minute decoration with Japanese figures, expressive faces or detailed oriental landscapes, or sometimes embellished with vivid dragons in relief. The regime took the capital in 1644.

### Transitional porcelain

Jan-Erik Nilsson Introductory text written by and together with several expert members of the.

### Japanese Satsuma Pottery

Chikusai Chin Jukan Chin Jukan Jukan zo, Jukan sei, Gyokuzan zo occurs under many signatures. Large factory producing low to middle quality wares. During the Wanli reign ceramics under government sponsorship slowly degenerated in quality until production itself was abandoned.

### How to Date Nippon Marks

Though the start date of Qing rule is customarily given as 1644, when the last Ming Emperor hanged himself as the capital fell, the war had really begun in 1618 and Ming resistance continued until 1683. The transitional ware of the early Kangxi decades witnessed a move away from designs and aesthetic standards of the painter to newer tastes typified by the artist and his use of western perspective. Satsuma export decorative style The success of the Satsuma export decorative style inspired many followers, some of which have a stoneware body or one of pure white porcelain.

### Japanese Satsuma Pottery

Study the back stamp carefully for clues in dating the piece. Check for telltale signs that the piece may be a reproduction. Succeeding controllers were appointed by the provincial administration up until 1726, when Beijing appointed Nian Xiyao.
