## 3rd Biennial Harvard Strabismus Symposium

An excyclotorsion of both eyes makes superior recti partial abductors and inferior recti partial adductors.

## Symposium on Amblyopia and Strabismus, Developmental Medicine & Child Neurology

Forty-five experts from around the world shared their perspectives at the San Francisco meeting, held November 6-9, 2012. Therefore, medial rectus is always shifted toward the apex, and lateral rectus is shifted toward the base of the A or V pattern Figure 10 , leading to the common mnemonic MALE: medials to the apex, laterals to the empty space of the pattern.

## Adult Strabismus: Causes, Symptoms, Treatment

In most cases, the perforation does not create a problem other than a chorioretinal scar, but in some cases can trigger endophthalmitis, vitreous hemorrhage or retinal detachment. Flowchart showing various theories for pattern strabismus.

## Strabismus (crossed eyes)

Differential diagnostic characteristics of intermittent exotropia and true exophoria. The eye turning may occur all the time or may appear only when the person is tired, ill, or has done a lot of reading or close work.

## Strabismus (crossed eyes)

If the primary surgery was bilateral lateral rectus recession of 6 mm or less, re-recession of the lateral rectus may be resorted to. Courtesy of Vinay Gupta, BSc Optometry Figure 7.
