### Wireless in the Warehouse

Learn how new and existing customers get the Samsung Galaxy S21 5G free with trade in. Sales often come from intercepting Walmart shoppers who may not be looking for a phone. The carrier has approximately 4,400 stores — all operated by authorized retailers.

### Wireless Retail

As with any major Wi-Fi deployment, initial designs must be verified and tweaked in the real environment. Online efforts and app usage were reducing the need for store visits. The carriers had nearly 9,100 stores, but T-Mobile is now claiming to have more than 7,500 stores.

### Wireless

Now add in forklifts with on-board Wi-Fi for location tracking and a device for navigation and inventory location, and move that device around at 10 to 20 mph, and things start getting really interesting.

### Wireless Retail

That's a sign that retailers need to start talking about wireless security at all levels of the company. This article was originally published on Feb 10, 2014. Also, Comcast and Charter are opening more stores and kiosks.

### Wireless Retail

The approach Dish Network will take is unclear, but the company is learning rapidly via Boost Mobile, which has great expertise about prepaid retail.

### Wireless Retail

Programming and content subject to change. They do not represent the opinions of FierceWireless.

**Walmart Wireless.**

And customer service expectations have never been higher.
