COVID

CARB is developing and may choose to apply expanded administrative procedures for the Refrigerant Management Program, Airborne Toxic Control Measure ATCM programs involving diesel sources, and the Periodic Smoke Inspection Program Civil Action In cases where a mutual settlement cannot be reached, CARB may refer the matter to the Attorney General for civil litigation.

Regulations and Enforcement

In several provisions, maximum penalties are higher when violations are intentional or willful. Thus, these documents are not contained in these versions of the regulations. In addition to criminal penalties, the defendant may be ordered to pay restitution to those affected by the violation.

Enforcement Policy

Activity is not required to be licensed but HSW Act applies to work activity of teachers. The ALPR system does not identify a specific person. LA LAs, however, are the enforcing authority for the office activities, defined by reg.

Enforcement Actions

Official enforcement actions FSIS has taken against establishments that have been found in violation of the Humane Methods of Slaughter Act.

Basic Information on Enforcement

An employer must also consider a case to meet the general recording criteria if it involves a significant injury or illness diagnosed by a physician or other licensed health care professional, even if it does not result in death, days away from work, restricted work or job transfer, medical treatment beyond first aid, or loss of consciousness. It explores the practices of a representative sample of environmental regulators, identifying a number of distinctive intervention strategies which are only limitedly shaped by existing theoretical models. If you have any questions regarding this policy, please contact Elizabeth Grossman, Director of the Office of Statistical Analysis, at 202 693-2225.
