European First Aid Guidelines

Folinic acid supplements to pyrimethamine-sulfadiazine for Toxoplasma encephalitis are associated with better outcome. Its aim is to improve the interplay of EU funding programmes with State aid rules. The treaty also stated that aid given in response to natural disasters would be lawful.

ERIC

During the State Aid Modernisation process initiated in 2012 , in which the Commission presented its proposals in accordance with Article 109 TFEU, Parliament was only consulted and had no say in the adoption of the Guidelines.

Maintenance therapy should be provided, using the same indications as for non-pregnant women. Patients with TE should be monitored routinely for adverse events and clinical and radiologic improvement AIII. Sulfadiazine rheumatic fever prophylaxis during pregnancy: does it increase the risk of kernicterus in the newborn? Introducing limitations and controlling state aid is necessary to hinder the issuance of excessive state aids, which is especially relevant in the case of the Union that lacks a strict balanced budget constraint and mainly operates with a single currency the euro.
