How does a sculptor get the proportions just right on a 35-foot-tall body atop a 15-foot base? Charles Norris, executive secretary of the Southeast Queens Clergy for Community Awareness, scoffed at the idea that the sculpture would benefit the borough, saying that the way the statue would be turned, the people of Queens would only see the back. Flack's monumental conception -- a 36-foot bronze figure of the queen striding purposefully forward on a 54-foot-high base comprising an elaborate staircase, columns and a giant globe -- will ever become more than a monumental conception remains uncertain. I'm losing a lot of sleep over this.
