Time Spent Online Statistics By Region and Type of Activity

They also represent best practices to enforce before investing in new market expansion and new customer acquisition. Also, just 56% say they have told their mother about their sexual orientation or gender identity, and 39% have told their father. The bulk of technology spending stems from purchases made by corporate or government entities.

That said, cybersecurity, especially during this wave of remote working, is a discipline that is table stakes for all kinds of channel partners. Economies, jobs, and personal lives are becoming more digital, more connected and more automated—a trend that is only accelerating after recent events.

Confidence in IT spending stays buoyant, says NCC

By contrast, gay men outnumber lesbians by about two-to-one among survey respondents. Security assessments, integration requirements and provider comparisons will be par for the course rather than viewed as clunky overhead, and cloud will be the foundation for rebuilding efforts.
