A Practical Guide to Oracle Database Adminstration for DBA & Developers

This section covers the common Oracle Database administration tasks.

SQL Indexing and Tuning e

As with Oracle Database and Oracle Grid Infrastructure image file installations, Oracle Database client image installations simplify Oracle Database client installations and ensure best practice deployments.

Oracle Database Release 19c New Features

Say you want to return Shelly's hire date. This desupport is now rescinded. Secure Cluster Communication protects the cluster interconnect from common security threats when used together with Single Network Support.

Database 19c and 21c

These parameters provide you with more control over resource utilization when there are multiple users performing Data Pump jobs in a database environment.

Database 19c and 21c

However, each index key must have either 0 or 1 table rows ROWIDs associated with it. This feature does not require you to manage the global uniqueness of a given non-primary key column in your application.
