Programmes

The third one was set up in 2003 in Stefan Voda. Thematic analysis was used to analyze the qualitative data.

Effective Strategies to Provide Adolescent Sexual and Reproductive Health Services and to Increase Demand and Community Support

Finally, the MOH was concerned about the sustainability of the 12 YFHCs, given that donor funding was for a limited period.

Webinars & Trainings

Standard 2: Community Support Description: Parents, guardians, and other community members recognize the value of adolescent health services. International conference on population and development, 1995.

Barriers to and facilitators of the provision of a youth

Adolescents and caregivers go hand-in-hand when talking about teen health care.

Toolkit: Youth

Most of these efforts are small in scale and of limited in duration. Initial coding of interview transcripts was conducted and themes were then visually mapped, with the inclusion of quotes, to provide a detailed picture of the information pertaining to each theme that emerged from the eight interviews.
